

NATIONAL CHEMICAL LABORATORIES, INC.

SAFETY DATA SHEET

Section 1 - Identification

Product Identifier	FOAM-BREAK Concentrated Carpet Defoamer	
Other means of identification	0650	
Recommended use	Defoamer.	
Recommended restrictions	For commercial and industrial use only.	
Manufacturer / Importer / Supplier / Distributor Information		
Company Name	National Chemical Laboratories of PA, Inc.	
Address	401 N. 10th Street - Philadelphia, PA 19123	
Telephone	1 (215) 922-1200	
Supplier Email	info@nclonline.com	
Contact	CHEM-TEL	
Emergency Phone	1 (800) 255-3924	

Section 2 - Hazard(s) Identification

	Category Target Organ		
Physical Hazards	Not Classified		
Health Hazards	Not Classified		
OSHA defined hazards	Not Classified.		
Label Elements			
Hazard Symbol	None.		
Signal Word	None		
Hazard statement	The mixture does not meet the criteria for classification.		
Precautionary statement			
Prevention	Observe good industrial hygiene practices.		
Response	Wash thoroughly after handling.		
Storage	Store away from incompatible materials.		
Disposal	Dispose of contents/container in accordance with local/regional/national/international regulations.		
Hazard(s) not otherwise classified (HNOC)	None known.		
Section 3 - Composition/Information on ingredients			
Mixture	The components are not hazardous or are below required disclosure limits.		
Composition Comments	All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.		
	Section 4 - First-aid Measures		
Inhalation	Move to fresh air. Get medical attention if irritation persists.		
Skin contact	Wash with plenty of soap and water. Get medical attention if irritation persists.		
Eye contact	Rinse with water. Get medical attention if irritation persists.		
Ingestion	Rinse mouth. Get medical attention if irritation persists.		
Most Important symptoms /effects, acute and delayed	Direct contact with eyes may cause temporary irritation.		
Indication of immediate medical attention and special treatment	Treat symptomatically.		
General Information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.		
	Section 5 - Fire-fighting measures		
Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).		
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.		
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.		

Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.			
Fire-fighting equipment /instructions	Move containers from fire area if you can do it without risk.			
General fire hazards	No unusual fire or explosion hazards noted.			
Specific Methods	Use standard firefighting procedures and consider the hazards of other involved materials.			
	Section 6 - Accidental release measures			
Personal precautions, protective	Keep unnecessary personnel away. For personal protection, see section 8 of the SDS.			
equipment and emergency procedures.				
Methods and materials for	SMALL SPILLAGE: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual			
containment and cleaning up	contamination. LARGE SPILLS: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.			
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.			
	Section 7 - Handling and storage			
Precautions for safe handling	Observe good industrial hygiene practices.			
Conditions for safe storage, including any incompatibilities	Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).			
	Section 8 - Exposure control/personal protection			
Occupational exposure limits	No exposure limits noted for ingredient(s).			
Biological limit values	No biological exposure limits noted for the ingredient(s).			
-				
Exposure guidelines				
Appropriate engineering	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Eye wash facilities and emergency shower must be available when handling this product.			
Appropriate engineering controls	conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne

Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Similar to water.
Vapor density	Similar to water.
Relative density	1.01 ± 0.01
Relative density temperature	75 °F (23.89 °C)
Solubilities	Soluable
Partition Coefficient n- octanol/water	Not available
Auto-ignition temperature	Not Available
Decomposition temperature	Not Available
Viscosity	450 cSt
Viscosity Temperature	75 °F (23.89 °C)

Section 10 - Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possiblity of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to Avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous Decomposition Products	No hazardous decomposition products are known.

Section 11 - Toxicological information

Information on likely routes of ex	posure		
Ingestion	Expected to be a low ingestion hazard.		
Inhalation	No adverse effects due to inhalation are expected.		
Skin contact	No adverse effects due to skin contact are expected.		
Eye contact	Direct contact with eyes may cause temporary irritation.		
Symptoms related to the physical, chemical and toxicological characteristics	Direct contact with eyes may cause temporary irritation.		
Information on toxicological effection	:ts.		
Acute toxicity	Not expected to be acutely toxic.		
Skin corrosion/irritation	Prolonged or repeated contact may dry skin and cause irritation.		
Serious eye damage/ eye irritation	Direct contact with eyes may cause temporary irritation.		
Respiratory sensitization	This product is not expected to cause respiratory sensitization.		
Skin sensitization	This product is not expected to cause skin sensitization.		
Germ cell mutagenicity	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.		
Carcinogenicity	This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.		
Reproductive toxicity	This product is not expected to cause reproductive or developmental effects.		
Specific target organ toxicity - single exposure	Not classified.		
Specific target organ toxicity - repeated exposure	Not classified.		
Aspiration hazard	Not available.		
Chronic effects			
Further information	This product has no known adverse effect on human health.		
Section 12 - Ecological Information			
Ecotoxicity	The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.		
Persistence and degradability	No data is available on the degradability of this product.		
Bioaccumulative potential	No data available.		
Mobility in soil	No data available.		
Mobility in general	The product is water soluble and may spread in water systems.		

	SAF	ETY DATA SHEET	
Other adverse effects		ital effects (e.g. ozone depletion, photochemical ozone creatio itential) are expected from this component.	n potential, endocrine
	Section 1	13 - Disposal considerations	
Disposal instructions Local disposal regulations Hazardous waste code Waste from residues / unused products	Dispose of in accordance with	ed by the user based on the application for which the product	was used.
Contaminated packaging	Since emptied containers may	v retain product residue, follow label warnings even after conta	iner is emptied.
	Section	14 - Transport information	
DOT IATA IMDG Transportation in bulk according to Annex II of MARPOL 73/78 and IBC Code General Information	Not regulated as dangerous g Not regulated as dangerous g Not regulated as dangerous g Not established.	oods.
